

## St Mary's Church, Donyatt Latest News

We were so happy to be able to host an Easter Sunday service at St Mary's now that the building work has been completed. It was a joy to have more than 20 people attend and a joy to be back in the centre of the Church with the restoration work looking fantastic including the restored stain glass window thanks to George Baker and team.

The organ restoration is also more than half way through and a very good job is being carried out thanks to our organ builder Brian Hooper and Liam Davies.
